Can exit at any time

Opening/Welcome Screen 1

Account Creation 2

Text fields

Account Name

Password (Optional)

Confirm Password

Buttons

Create Cancel

1

```
graph TD; subgraph Form; direction TB; TitleBar["- X"]; TitleBar --- Input1[Account Name]; Input1 --- Input2[Password (Optional)]; Input2 --- Input3[Confirm Password]; Input3 --- Buttons["Create Cancel"]; end; Input1 --> 1; Input2 --> 1; Input3 --> 1;
```

Both create and cancel lead back to 1. If create is used but there is an error (such as already existing account or mismatched password) nothing happens and a pop up appears.

Login Page 3

The diagram illustrates a login window titled "Login Page 3". The window has a title bar with a minimize button (represented by a horizontal line) and a close button (represented by an 'X'). Inside the window, the text "*Text fields*" is centered at the top. Below this, there are two text input fields. The first field is labeled "Account Name" and the second is labeled "Password (Optional)". Below the text fields, the text "*Buttons*" is centered. There are two buttons: "Login" and "Cancel". Arrows point from the "Login" button to the text "4 Or 5" and from the "Cancel" button to the text "1".

Text fields

Account Name

Password (Optional)

Buttons

Login

Cancel

4 Or 5

1

If login results in error a pop up appears for the user (nonexistent account or wrong password)

If admin user is used then admin screen showed (4)

If regular user used then album screen showed (5)

Admin/Superuser 4

1
↑ *Button*

Log Off	User Name	—	X
	Account Name	<input type="text"/>	
	Password (Optional)	<input type="text"/>	
	Confirm Password	<input type="text"/>	
List View of all possible accounts sorted by name	Create using above fields		
	Delete Selected		

Super user has similar pop up errors that could occur during normal account creation
